The Fair Deal

I have a Krowa Indian
he said it had been in his family
for more than ten years.
Since they came from the North,
I don't know the value of it but
if it is the real thing I want to
let some value to a collector of
historical coins. Mark me
if you can, for it or if you do not
can't to buy please a word in it.
Can ask a price from some Private
Collector. How many of you?
